We accept no responsibility for the consequences of this document being relied upon by any other party, or being used for any other purpose, or containing any error or omission which is due to an error or omission in data supplied to us by other parties.

Note on Documentary Series

A series of documents has been produced by Cambridge Education as leader of the ESSPIN consortium in support of their contract with the Department for International Development for the Education Sector Support Programme in Nigeria. All ESSPIN reports are accessible from the ESSPIN website. <u>http://www.esspin.org/resources/reports</u>

The documentary series is arranged as follows:

ESSPIN 0	Programme Reports and Documents
ESSPIN 1	Support for Federal Level Governance (Reports and Documents for Output 1)
ESSPIN 2	Support for State Level Governance (Reports and Documents for Output 2)
ESSPIN 3	Support for Schools and Education Quality Improvement (Reports and Documents for Output 3)
ESSPIN 4	Support for Communities (Reports and Documents for Output 4)
ESSPIN 5	Information Management Reports and Documents

Reports and Documents produced for individual ESSPIN focal states follow the same number sequence but are prefixed:

JG Jigawa KD Kaduna KN Kano KW Kwara LG Lagos EN Enugu

Kaduna Civil Society Organisation Self-Assessment 2016: Executive Summary

CSOs from Kaduna State in the 2016 self-assessment have scored a Band A

1. This report sets out the outcomes and results of the 2016 CSO self-assessment workshop for Kaduna State and it provides some comparison of results over 5 years of self-assessments (2012-16). Self-assessment procedures were designed to allow Civil Society Organisations which are partnering with ESSPIN and State Governments to conduct participatory and integrated assessments of key aspects of performance under the overall output indicator 'Quality of CSO Action for Quality, Inclusive Education'. This output indicator comprises 4 sub-indicators, each of which is defined in terms of dimensions and performance criteria against which current practice is assessed. Assessment is carried out in a participatory manner by the CSOs, facilitated with the support of external consultants in the presence of government, and informed by evidence. The results of the assessment are then used by CSO and Government Partners to identify priorities for forward planning and they provide a baseline against which improvements can be made at a later date. Table 1 below sets out the overall scores out of a total of 20 marks, and results for Kaduna State 2012-2016.

Name of Organisation	20	12	20	13	2014		2015		2016

The CSO Self-Assessment Scoring System

- 2. The scoring system works as described in *Table 2* below. There are 10 performance criteria overall therefore the total score available for each CSO is 20. The performance criteria can be found in Annex 3
- 3. A score of MET against a particular performance criterion is awarded 2 points; a score of PARTIALLY MET is awarded 1 point and a score of NOT MET is awarded 0 points. These scores are then aggregated to MET, PARTIALLY MET or NOT MET for each sub-indicator, and finally aggregated to an A-D scale for the overall indicator as follows:

Score	Band
Score of 16-20	A
Score of 11-15	В
Score of 6-10	C
Score of 1-5	D

Table 2

Comparing the 2016 CSO Self-Assessment to Previous Years

- 4. The 2015 and 2016 CSO Self-Assessment results are broadly though not directly comparable to those of 2012-14 and this is due to two main factors. The first factor is the slight revision of performance criteria for self-assessment undertaken with state partners in 2014 when DFID granted ESSPIN a 2.5-year extension (2014-17) at which point a consolidation/exit strategy was formulated. The second was the addition of new Civil Society Organisations to the 2015 self-assessment (6 in Kaduna) which had not previously participated 2012-14 and which had at that point received less direct capacity development from ESSPIN than CSO partners participating since 2010.
- 5. Performance criteria were slightly revised under the same broad areas under which CSO (and Social Mobilisation Officer) capacity has been developed in the lifetime of ESSPIN: 1. CSO Partnership with Government; 2. CSO capacity to mobilise communities for school improvement and marginalised children; 3. CSO capacity to conduct evidence-based advocacy based on experience of working with schools and communities. To reflect the revisions, the self-assessment tool for 2015 and 2016 differed in to the 2012-14 tool in the following ways:
 - Under Partnership (4.3.1) one dimension was added to measure not only whether the CSOs were able to partner with government for school improvement, but also the quality of that partnership, evidenced through regularity of review and planning meetings with the SUBEB Department of Social Mobilisation (DSM).
 - Under CSO capacity to mobilise communities for school improvement (4.3.2) the performance criteria were adjusted to reflect better the activities to be undertaken during the extension period, including a Traditional and Religious Leader's Forum, the strengthening of child protection in and around schools, and CSO capacity to produce good quality narrative and financial proposals for funds to support school improvement.

- Under CSO advocacy capacity criteria were strengthened to capture whether any changes in policy or practice were directly as a result of CSO advocacy or not.
- A whole new sub-indicator was added (4.3.4) to reflect CSO capacity to request for, receive, manage, and retire funds in a timely and transparent manner based on training provided by ESSPIN.
- 6. It is often though not always the case that CSOs from the same state score the same overall mark. This is because they participate jointly and simultaneously in capacity development workshops, and they plan, deliver and review activities together. Differences which have existed in previous self-assessments have usually been due to new organisations joining the programme which did not participate in early capacity development workshops and had to 'catch-up' a bit, or due to the inability of an organisation to produce evidence to support a self-assessment claim. In 2016 the Kaduna CSOs have all scored the same on all assessment areas.

Self-Assessment Participants

7. For this final CSO self-assessment 2 representatives of each CSO were in attendance, one SBMC Chair representative, and the SUBEB Director of Social Mobilisation of each state attended the workshop. The SUBEB Directors of Social Mobilisation made presentations on state SBMC progress since the 2015 self-assessment and supported the validation exercise. The self-assessment workshop is a rare opportunity for CSOs, SUBEB and SBMC Chairs to meet and share experience across states, and each year participant evaluations highlight the experience sharing to be a valuable and desirable exercise. ANNEX 2 summarises the outcomes of the Experience Sharing Session for 2016 which comprised of one CSO representative from each state making a presentation and leading following discussion on the state-level advocacy event in which all CSOs from a state participated as a 'coalition' of organisations.

Background to SBMC Development through CSO-Government Partnership

- 8. SBMC research conducted in 2009¹ highlighted that the links between communities and their schools and communities and local government education authorities were weak. Where SBMCs existed, they were not clear about their role and there was no unified vision of what a SBMC should be. Many SBMCs were not inclusive by nature, so the participation of the broader community, including women and children was limited. Schools were seen as solely government property and there was limited or no sense of community ownership or support for schools.
- 9. ESSPIN supported 6 States to domesticate federal policy guidelines on School Based Management in Nigeria through a participatory SBMC Visioning process at state and community level. These were harmonised and developed into 6 sets of state-specific policy guidelines and an SBMC Guidebook, which sets out state SBMC policy and acts as the training tool for SBMCs. SBMCs are the vehicle for increased community demand, voice and accountability in education and school improvement. ESSPIN supported the implementation of the new state-specific policies through the capacity development of a partnership of Civil Society and Government (CGP) to in turn activate, train and mentor School Based Management Committees (SBMCs) initially in **1,151** pilot schools across the 6 states, and latterly in a

¹ Poulsen H (2009) School Based Management Committees in Policy and Practice: Research Synthesis Report

total of **10,442** schools as a result of states rolling SBMCs out using their own resources to additional schools in new local government authority areas. Capacity development of CSOs and the Social Mobilisation Officers of the SUBEB Department of Social Mobilisation (the institutional home of the SBMC) was initially provided by ESSPIN, but by July 2014 each state had its own team of Master SBMC Trainers in place, who train new CSOs and SMOs on SBMC development as and when necessary. Key areas of capacity have included change and relationships management, advocacy, leadership, communication and conflict resolution, resource mobilisation, child protection and participation, and gender and inclusive education.

- 10. Following visits in 2012 by the Federal Universal Basic Education Commission (UBEC) to ESSPIN supported states to share experience on SBMC development, UBEC decided to replicate the model nationwide. By May 2014 UBEC had revised the National SBMC Guidelines with technical support from ESSPIN, supported all but two states of the Federation to domesticate the revised SBMC policy guidelines and implement SBMC training utilising their own resources, and had commenced delivery of the mentoring stage of the process. Since then UBEC have taken ownership of the SBMC development process nationwide, training a Core Team from all UBEC departments on SBMC development, providing funding for SBMC development to all states on an annual basis from the intervention Teacher Professional Development fund, leading a National Stakeholders Conference on Community Participation in Education (November 2014), adopting the ESSPIN supported SBMC monitoring tool for use by all international development partners supporting SBMC development, and working with the Federal Ministry of Education to develop National SBMC Policy and put statutory funding for SBMC development in place in Nigeria.
- 11. By July 2014 through SBMC development there was a link between communities and schools and a partnership between civil society and government, which did not exist in 2008; states had contracted CSOs to support SBMC rollout; there was greater community ownership and support of schools; more children from marginalised groups in school as a result of community engagement; and SBMC forums established at LGEA level as platforms for community voice and demand. Funding for SBMC development remained the greatest challenge to sustainability.

SBMC Development Consolidation 2014-16

- 12. DFID granted ESSPIN a 2-year extension in 2014 to focus on consolidating, deepening and strengthening gains made from 2008-14, and in August 2014 ESSPIN facilitated a consolidation planning workshop for partners working on community engagement, CSOs and the SUBEB Department of Social Mobilisation. With a focus on sustaining SBMC development in states beyond ESSPIN, state partners identified gaps and developed areas for further strengthening and institutionalisation. These areas provided the basis for a community engagement sustainability and consolidation strategy 2014-17 to run concurrently with state-led SBMC rollout and for states to adopt beyond the delivery of the core SBMC training and 8 mentoring visits.
- 13. In consolidation ESSPIN has continued to support Civil Society and State Governments to strengthen their partnership and work together beyond ESSPIN to facilitate community engagement in education and school improvement. There has been a deepening of work on voice and accountability with

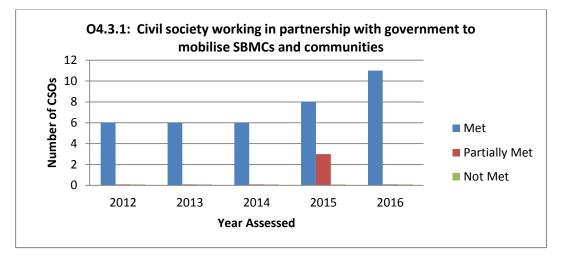

specific capacity development for each partner: for Social Mobilisation Departments to lead the process of SBMC development in states, ensure that it is funded, and respond to increased community demand ensuring that it is reflected in LGEA and State planning and budgeting processes; and for CSOs and SBMCs (including women, children, traditional and religious leaders) to advocate for and mobilise resources for school improvement, better learning outcomes and education for all children based on evidence from their own local context.

- 14. Specific capacity areas identified by state partners for consolidation, which feature in the consolidation work-plan and therefore in the 2016 self-assessment, include strengthening the partnership between government and civil society; strengthening of the SBMC LGEA Forum as a mechanism/platform for community voice; further developing capacity for SBMCs, women, children and traditional rulers to articulate demand for school improvement; strengthening capacity at state, local government, school and community level to respond to conflict and violence in and around schools; further developing CSO capacity to identify key advocacy issues based on strong evidence (including research) and conduct advocacy with relevant duty-bearers; developing CSO capacity to write quality concept papers and proposals and source for funds to sustain community engagement in school improvement.
- 15. Over 2014/2015, prior to providing consolidation support directly to selected SBMCs, additional capacity development was provided through workshops to CSOs as follows:
 - Developing concept papers and proposals to source for funding
 - Application process to work on the consolidation through concept and proposal writing process
 - Participatory research and advocacy
 - Gender, women and children's participation and inclusive education
 - Finance and Accountability
 - Child protection: reporting mechanisms for conflict/violence in and around schools
- 16. Relevant capacity areas from the above are being provided to SBMCs through CGP mentoring visits to schools, cluster level trainings with SBMCs women and children and traditional and religious leaders, and support to states to conduct SBMC forums at LGEA level.
- 17. At the time of writing the number of schools benefiting from SBMC development across all ESSPIN supported states, through both ESSPIN support and State Government rollout, totals 11,695. Of these SBMCs the Social Mobilisation Officers at LGEA level have been able to get monitoring data from 11,023 schools, and of these 8,175 are assessed to be 'functional' according to key state SBMC roles and responsibilities. This is 74% of SBMCs monitored across all states. When read together, SMO reports and CSO Voice and Impact Reports provide a very comprehensive account of SBMC development and progress in a state and constitute important data for planning at school, LGEA and state level.
- 18. In Kaduna State the number of SBMCs supported total **1,895** which is a large percentage of all public primary schools in the state and includes 100 Junior Secondary Schools. In 2016 SUBEB have been able to collect monitoring information for all, including the most recently added 1,150 state rollout school

SBMCs of which **1,290** (**68%**) are now functioning effectively according to Social Mobilisation Officer monitoring data and as per Kaduna State SBMC policy criteria.

Analysis by Year by Sub-Indicator Kaduna State

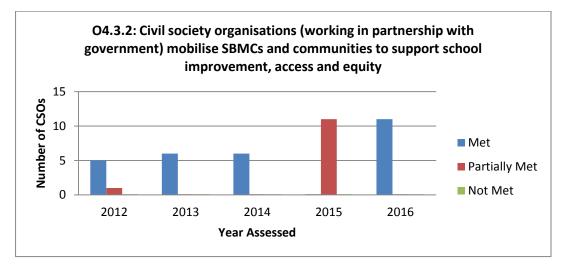

1. Partnership

- 19. **Key Revisions 2015 and 2016:** From 2012-14 there was one key performance criteria on partnership: O4.2.1.1. (now O4.3.1.1). An additional one was added in 2014. The first of the 2 performance criteria measures whether CSOs have a partnership/engagement with government in their state to roll out SBMC development or not.
- 20. The second performance criteria is a measure of the **effectiveness** of the partnership (O4.3.1.2). It was agreed that this be measured based on whether there are regular meetings held between the government and civil society to review progress, resolve issues and plan ahead, and evidenced by meeting minutes and attendance. Ideally beyond ESSPIN this would happen on a quarterly basis to ensure improved partnership.
- 21. The score on partnership for 2016 is derived from both performance criteria. The score is **met** for all and reflects the 11 CSOs partnering with Kaduna State Government and ESSPIN to rollout, scale-up and consolidate SBMC development. It also reflects the achievement of a strengthened definition of partnership since 2014, which includes 'effectiveness' of partnership.

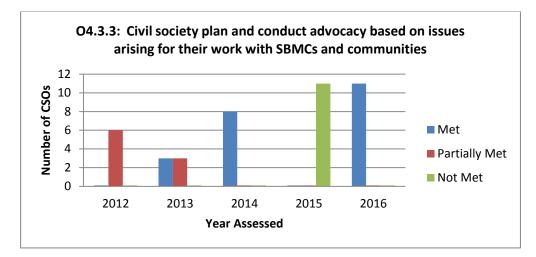

Sub-Indicators	Dimensions	GAT	HVCCF	GAWON	SHED	МНР	JEBI	LERC	FANTSUAM	YOTASCID	ABANTU	WVDI

	For sub-indicator 4.2.1	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met

2. Community Mobilisation

- 22. Key Revisions 2015 and 2016: From 2012-14 there were 3 performance criteria under the community mobilisation sub-indicator. They were slightly revised to 4 performance criteria in 2015 with more emphasis on voice and accountability and to reflect CSO capacity to continue to mobilise resources for community participation/SBMC development beyond ESSPIN (see table below 4.3.2.1 4.3.2.4). The score on the community mobilisation sub-indicator is *Met* for all Kaduna CSOs in 2016 compared to 'partially met' in 2015. The drop in performance between 2014 and 2015 from a 'met' to a 'partially met' was due to a number of factors including the revision of the performance criteria for the extension period, and a delay in implementation of activities which limited the possible score for each organisation.
- 23. Supporting evidence included draft CSO Voice and Impact Reports, CSO and SMO work plans, and proposals submitted to ESSPIN (and other donors) for community engagement funds.

24. Sub- Indicator s	Dimensions	GAT	HVCCF	GAWON	SHED	МНР	JEBI	LERC	FANTSUAM	YOTASCID	ABANTU	WVDI

	For Sub-indicator 4.2.2	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met

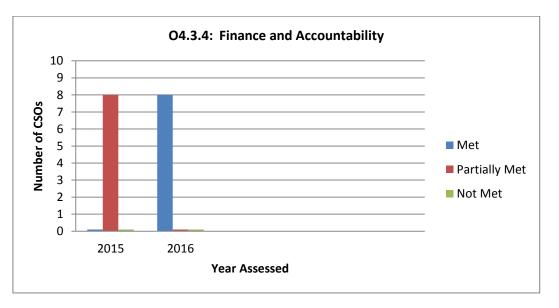

3. O4.3.3: Advocacy and Research

- 25. Key Revisions 2015 and 2016: One of the gaps identified by CSOs and state partners during the 2014 sustainability gap analysis was around capacity of CSOs and SBMCs (and SMD internally) to conduct advocacy on issues related to access, quality and inclusion and community participation in school improvement. Partners highlighted that whilst advocacy capacity had increased (captured in 2012-14 results), there was a need to strengthen the gathering of evidence on which to base advocacy to increase the likelihood of bringing about the desired change. ESSPIN responded by providing capacity development on participatory research for advocacy to all CSOs, and research was included as a key activity in the consolidation work. Following the actual research conducted by the CSOs, ESSPIN provided some additional technical support on data entry, analysis, and presentation in preparation for high state level advocacy events which were implemented within Tranche 3 (May 2016) of the consolidation fund workplan.
- 26. The scores in 2016 highlight the Kaduna CSOs to be **Met** overall on the performance criteria for advocacy (O4.3.3). The Kaduna CSOs were able to present a strong research report for advocacy, showing that the research had been conducted in selected school communities, data entered and harmonised, data analysed and developed into key recommendations for the Kaduna State Government on inclusive education and government response to increasing community demand.

27. Sub- Indicator s	Dimensions	GAT	HVCCF	GAWON	SHED	МНР	JEBI	LERC	FANTSUAM	YOTASCID	ABANTU	WVDI

accountability	For sub-indicator 4.2.3	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met

4. O4.3.4: Finance and Accountability

- 28. This was a new sub-indicator introduced to the 2015 and 2016 self-assessments. It was added as the result of the decision taken in 2014 to develop CSO capacity further on finance management and accountability, as well as to conduct *Due Diligence* on each organisation as part of the selection process for consolidation. Finance training was provided by ESSPIN to all CSO Finance Officers to strengthen the grant's management and financial reporting aspect of partnering with civil society organisations. This is additional organisational capacity for the CSOs which when visible in their organisational portfolio can help them to be successful in bids or applications for funding in the future.
- 29. There are no comparisons with years 2012-14, but CSO capacity has improved during the consolidation period from a 'partially met' to a '**MET**' as CSOs have become more familiar with and able to use templates and spreadsheets which help them to better manage and retire funds in a transparent manner.
- 30. Evidence provided included reports of the finance training workshop delivered to CSO finance officers, expenditure tracking mechanisms either developed by organisations themselves or presentation of the one provided by ESSPIN, and the correctly filled advance fund request form for tranche funds. It also included documentation demonstrating timely and proper retirement of funds by the CSOs.

	For sub-indicator 4.2.4	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met	Met

Conclusions Kaduna

31. In conclusion, the overall score for Kaduna is an A in 2016 with an average score of 19 out of 20. As an A is the overall target for the indicator '*Quality of CSO Action for Quality Inclusive Education*', Kaduna State CSOs have met the 2016 target.

This is a most positive reflection on the CSOs (and SMD) of Kaduna State and a strong statement of their capacity to both support government effectively on service delivery whilst at the same time to play an advocacy role based on experience and evidence.

- 32. Other achievements for the Kaduna CSOs this year include the continued successful completion of DFID's 'due diligence' exercise which is periodically conducted by an external consultant. This is a thorough external assessment of each CSO's organisational and technical capacity to receive funding and be part of the consolidation work and the Kaduna CSOs have continued to be successful. This external assessment has been conducted over the consolidation period in addition to the initial very detailed assessment of the CSOs undertaken by ESSPIN and states to participate in the pilot and state SBMC rollout, **and** the technical application as capacity development), and the usual annual CSO self-assessment. All these different assessments/performance reviews have in themselves added capacity to the CSOs, and they also tell us that the organisations engaged by ESSPIN and states are well qualified to do the work they are doing.
- 33. The Kaduna CSOs were able to present with very high quality documentation and evidence to support their self-assessment in 2016. Documentation of evidence to support advocacy is one area in which all CSOs have grown enormously over the life time of ESSPIN. CSO Voice and Impact Reports are now of a particularly high standard and if continued beyond ESSPIN have the potential when used alongside SMO and SSO reports to greatly assist the state in planning for school improvement based on evidence and information from schools and communities.

ANNEX 1: Kaduna State CSO-Government Partnership Action Plan for Sustainability

Annex 2: Kaduna CSOs Advocacy Presentation for Experience Sharing

Situation Before Intervention:

- Communities perceived schools as owned and managed by government.
- Parents did not consider taking responsibility for their children's education
- Pupils were not encouraged to attend schools from Basic to higher levels
- Islamic/Quranic education preferred by most families
- Voices of Women and children not considered in school/education decision making
- Dilapidated Schools infrastructure, lack of basic facilities (i.e. appropriate classrooms, furniture, toilets, safe drinking water, security etc.).
- Many teachers unqualified with demonstrated incompetence in manner they handle their work

Advocacy Issues Selected

- Inclusive Education
- Government Response to Growing Community Demand for Quality Inclusive Education

Participatory Research Conducted Revealed:

- There is fear of being stigmatised/marginalised/outright rejection of special-needs children by teachers, hence parents prefer to keep them at home.
- Poor conditions of public schools depicts unsafe environment and total neglect (dilapidated structures, blown off roofs, broken classroom windows, doors and furniture).
- Lack of adequate and qualified teachers.
- Inadequate Health and Safety measures that makes Schooling unattractive (absence of safe drinking water, toilets, security etc.)
- Inadequate responses to issues of school improvement (SBMC Demands)
- Use of the children for child labour esp. hawking and farming so as to ensure family subsistence

CSO Advocacy Visits to High Level Decision-Makers

- A. SUBEB
- B. State House of Assembly
- C. Ministry of Education

Key Advocacy Messages in Research Report:

- A. Kaduna state SUBEB Law 2007 to review Policy on Education for all
- B. Legislation of Policy on School Based Management Committees
- C. Inclusive Education Policy for the state
- D. Institutionalising SBMCs

Response from Government

Issue A: Ensure compliance to Inclusive Education policy in public schools.

Outcome: Government promised to partner with the coalition to achieve compliance

Issue B: Formalise SBMC as Government–Community School Improvement Volunteers. *Outcome:* Government promised to partner with the coalition to achieve compliance

Further Recommendations:

Conduct follow-up visits to decision-makers to ensure the following:

- A. Legislation/implementation of inclusive education in state public schools.
- B. Legislation/appropriate support for SBMC for Community-Government linkage on school improvement.
- C. Government collaboration with coalition on school improvement Programme for sustainability.

Kaduna State CSO Advocacy Event

Photo of CSO advocacy presentation to the Education Committee of the Kaduna State House of Assembly

Annex 3: Presentation Made by the Director Social Mobilisation Kaduna State on

SBMC Development

The DSM Director made a presentation to all participants of the CSO self-assessment workshops. He presented according to the following headings:

- 1. Good practices by SBMCs
- 2. Resource Mobilization
- 3. Rollout/activation of SBMCs
- 4. Community Participation/Trainings
- 5. Networking/partnership by SBMCs

Good Practices of SBMCs in Kaduna State as a result of training, mentoring and monitoring:

- Monitoring teachers' attendance to school and classes
- Advising the school authority or teachers' behavior and commitment to work
- Engaging in awareness raising and advocacy
- Monitoring and safeguarding school infrastructure/project
- Stoppage of school land and encouragement through tree planting around the school territory.

Resource Mobilisation by SBMCs

- Raising funds through approaches to philanthropists, donors, business people
- Donations by different individuals or companies
- Contributions by individuals, groups, and companies
- Question of whether some SBMCs are levying their membership for support
- Requests directly to government at both local and state level

SBMC Rollout by State Government

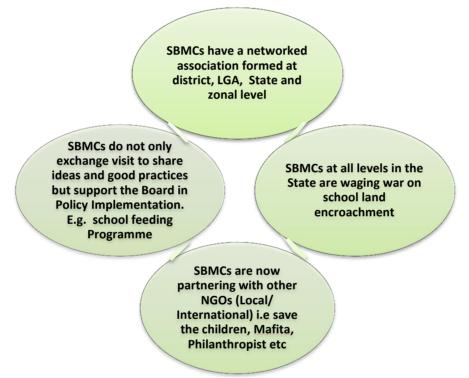

- 9 Master Trainers were identified and trained in year 2009 who in turned trained additional 17 trainers in 2011 making a total of 26 Master Trainers to expand our training capability in collaboration with ESSPIN and Civil Society Organizations
- 240 Social Mobilisation Officers (SMOs) were trained across the 23 LGEAs
- 26 State Master Trainers drawn from (i.e. 6 CSO partners, 8 SUBEB Headquarters and 14 LGEA)
- Another set of 1,150 SBMCs were established in 2013 using part of the Kaduna State Teacher Professional Development intervention funds from UBEC.
- Kaduna State Government committed to providing an amount to match what UBEC provides for SBMC development
- 1,331 new SBMCs to be trained in 2015 again using UBEC Teacher Professional Development Funds
- Arrangements concluded for state rollout to a new 600 and then 800 new SBMCs in 2016 and 2017 respectively under the World Bank led Global Partnership for Education

Community Participation

- State Policy was collectively developed by SUBEB, community with the support of ESSPIN through domestication of the processes in 2009
- The state policy was later translated into Hausa Language alongside the guidelines
- The Board printed over 10,000 copies each of the State Policy and Guidelines
- Domestication of SBMC to having 17 members, fair presentation of divergent interest groups Adoption of ESSPIN approach to rollout to 480 schools/SBMCs in 16 LGEAs

- 9 Master Trainers were identified and trained in 2011 who in turned trained 17 trainers in 2013 making a total of 26 Master Trainers
- 240 Social Mobilization Officers (SMOs) were trained across the 23 LGEAs
- Another set of 1,150 SBMCs have been established in 2014 and have undergone all the stages of SBMC development
- Conduct of SBMC/LGA Forums in 16 LGEAs
- SBMCs have a networked association formed at district, LGA, State and zonal level
- SBMCs at all levels in the State are waging war on school land encroachment
- SBMCs are now partnering with other NGOs (Local/ International) i.e. Save the Children, Mafita, philanthropists etc
- SBMCs do not only exchange visits to share ideas and good practices but support the Board in policy implementation, e.g. school feeding programme

Networking and Partnerships by SBMCs in Kaduna State

Challenges which Remain

- The State Government Policy on Free Education made some SBMCs to be reluctant towards resource mobilisation
- Some SBMCs resist elections of new officers after the expiration of their 3 year tenure as stated in the State policy
- Some overzealous SBMC members who are not among the official 17 members imposed themselves in running the activities of the SBMC
- Interference in SBMC activities by religious/traditional leaders in some places
- The record made in the past in the area of enriched record keeping has dropped, probably due to lack of commitment by SBMCs
